ELECTRIC SPARKS.

Electrical power can be transmitted with profit 80 miles and used as steam is used.

Electrically operated dredges are now used on rivers and harbors where immense quantities of material have to be handled quickly.

Signals have been sent by wireless telegraph through a suit of seven rooms the doors of which were closed. They were transmitted through a telegraph switchboard containing both dead and live wires.

Finding a Mine.

Two cowboys and several sticks of dynamite very suddenly and unexpectedly discovered the Hualupí mines near Kingman, A. T. The cowboys were on their way across the territory, and they had with them several sticks of dynamite, to be used when they reached the Colorado river. One day they camped some seven miles north of where Kingman now is. They left the dynamite among some boulders at a distance from the camp for safe keeping. The day was unusually hot, and in some unaccountable way the dynamite went off. The cowboys hurried to the place of explosion, and even their inexperienced eyes saw that the dynamite had blown a gold mine into their pockets. As high as \$25,000 a month has been taken out of this mine.—*Philadelphia Times.*

RHEUMATISM

Is due to an acid poison which gains access to the blood through failure of the proper organs to carry off and keep the system clear of all morbid, effete matter. This poison through the general circulation is deposited in the joints, muscles and nerves, causing the most intense pain.

Rheumatism may attack with such suddenness and severity as to make within a few days a healthy, active person helpless and bed-ridden, with distorted limbs and shattered nerves; or it may be slow in developing, with slight wandering pains, just severe enough to make one feel uncomfortable; the tendency in such cases is to grow worse, and finally become chronic.

Like other blood diseases, Rheumatism is often inherited, and exposure to damp or cold, want of proper food, insufficient clothing, or anything calculated to impair the health, will frequently cause it to develop in early life, but more often not until middle age or later. In whatever form, whether acute or chronic, acquired or inherited, **Rheumatism is Strictly a Blood Disease,** and no liniment or other external treatment can reach the trouble. Neither do the preparations of potash and mercury, and the various mineral salts, which the doctors always prescribe, cure Rheumatism, but ruin the digestion and break down the constitution.

A remedy which builds up the general health and at the same time rids the system of the poison is the only safe and certain cure for Rheumatism. S. S. S., made of roots, herbs and barks of wonderful solvent, purifying properties, attacks the disease in the right way, and in the right place—the blood—and quickly neutralizes the acid and dissolves all poisonous deposits, stimulates and reinforces the overworked, worn-out organs, and clears the system of all unhealthy accumulations. S. S. S. cures permanently and thoroughly, and keeps the blood in a pure, healthy state.

Mr. J. O. Malley, 123 W. 15th Street, Indianapolis, Ind., for eighteen months was so terribly afflicted with Rheumatism he was unable to feed or dress himself. Doctors said his case was hopeless. He had tried fifty-two prescriptions that friends had given him, without the slightest relief. A few bottles of S. S. S. cured him permanently, and he has never had a rheumatic pain since. This was five years ago.

We will send free our special book on Rheumatism, which should be in the hands of every sufferer from this torturing disease. Our physicians have made blood and skin diseases a life study, and will give you any information or advice wanted, so write them fully and freely about your case. We make no charge whatever for this service. Address, SWIFT SPECIFIC CO., Atlanta, Ga.
